- ❖ Data Visualization with Python
- ❖ Basics of Machine Learning
- ❖ Artificial Intelligence Projects
- ❖ What is IOT?
- ❖ Python Fundamentals for Beginners

PROJECT

Development of a website of Blood Bank Management System

As part of a BBA(CA) project, I worked in a team to develop a website using PHP, HTML, CSS, JAVASCRIPT, MYSQL, JQUERY . The website was designed to manage the donor registration, monitoring of blood bags or products, inventories, and monitoring of blood bags or products issuance. The website was well-received by the course instructors and we were awarded the highest grade for the project.
